### **Marketplace Fairness Coalition Lends Strong Support to New Chaffetz Effort Aimed At Closing Antiquated Online Sales Tax Loophole**

*Letter Signed by 3 Million American Businesses Outlines “Destination Sourcing” as the Only Serious Way to Finally Level Retail Playing Field & Protect Local Jobs*

**WASHINGTON D.C.** – In a letter sent today to U.S. Reps. Jason Chaffetz and Steve Womack, the Marketplace Fairness Coalition, which includes the International Council of Shopping Centers (ICSC), the Retail Industry Leaders Association (RILA), the National Retail Federation (NRF), American Farm Bureau, National Association of Wholesaler-Distributors, and representatives of thousands of other American businesses applauded the introduction of the *Remote Transaction Parity Act of 2015* (RTPA) which would finally address, in a serious manner, the long overdue effort to close the antiquated online sales tax loophole and offer parity for all businesses. In addition to the associations listed above, the letter was signed by almost 700 retail organizations, companies and small businesses, which collectively represent millions of American businesses and civic organizations.

In a [press statement issued recently](#), the Marketplace Fairness Coalition observed that it’s now been more than two years since the Senate overwhelmingly passed bipartisan legislation to close the antiquated sales tax loophole. Since the Senate vote there have been varied discussions with the House Judiciary Committee. We are hopeful that RTPA can move the discussion in committee and ultimately lead to a desperately needed solution.

The need to move legislation was echoed in testimony to the House Judiciary Committee by National Governors Association Executive Director Dan Crippen who reminded lawmakers that “[t]he need to create parity between in-state and out-of-state retailers regarding the collection of state and local sales taxes” remains “the tax issue of greatest importance of states.”

In its letter to Chaffetz and Womack today, the Coalition wrote, **“As America’s marketplace continues to advance into a multi-channel arena, this legislation is urgently needed to restore a level playing field to the marketplace, thereby allowing our businesses to deliver exciting new goods and services to consumers now and into the future. We want to again reiterate our thanks for your leadership in helping to create consensus and a legislative product that has enthusiastic support by the majority of stakeholders.”**

Please see the full MFC letter below:

## MARKETPLACE FAIRNESS COALITION

---

June 15, 2015

The Honorable Jason Chaffetz  
United States House of Representatives  
2236 Rayburn House Office Building  
Washington, DC 20515

Dear Representative Chaffetz,

On behalf of the millions of businesses and civic organizations represented by the list below, we write to offer our strong support of the Remote Transactions Parity Act of 2015 (RTPA). This legislation, which would provide a level playing field for all sellers with respect to the collection of state sales taxes, is the product of an inclusive and thoughtful process and unites a wide and diverse range of stakeholders seeking to restore free market competition and transparency to America's marketplace.

We applaud your recognition that legislation addressing the collection of online sales taxes must be based on destination sourcing. This approach is necessary to solve the key problem of price disparity at the point of purchase that is unfairly impacting community-based businesses. Furthermore, destination sourcing ensures that residents will continue to pay the sales taxes of the state in which they reside, rather than to some state with which they have no affiliation and which may carry a higher sales tax rate than their own home state. Destination sourcing is also essential because it will provide for smoothest integration into current sales and use tax collection processes, allowing merchants to utilize a multitude of compliance software options already in existence.

Additionally, RTPA requires several important simplification and business protections, such as single point of collection, a uniform sales and use tax base and free certified software solutions for sellers. RTPA also includes additional safeguards not found in other bills or discussion drafts such as expanded audit protections and a longer transition period for smaller sellers with a higher initial threshold. These provisions will ensure that businesses are shielded from state regulatory overreach while providing certainty for all sellers to compete on a level playing field.

As America's marketplace continues to advance into a multi-channel arena, this legislation is urgently needed to restore a level playing field, thereby allowing our businesses to deliver exciting new goods and services to consumers now and into the future.

We want to again reiterate our thanks for your leadership in helping to create consensus and legislation that has the enthusiastic support from a majority of stakeholders. We look forward to working with you to see the Remote Transactions Parity Act of 2015 through to completion this year.

Sincerely,

# MARKETPLACE FAIRNESS COALITION
