ANNUAL REPORT

OF

FINANCIAL TRANSACTIONS

FOR THE YEAR 1913

Compiled and published by authority of Chapter 550, Statutes of 1911

JOHN S. CHAMBERS, State Controller

CALIFORNIA
STATE PRINTING OFFICE
1914

INTRODUCTION.

In this, the third annual report of the financial transactions of municipalities and counties there are complete returns from all counties and 208 out of 231 cities and towns of the State. Of the balance of twenty-three cities and towns, thirteen were incorporated less than twelve months, and for this reason were not required to make a complete report.

IGNORE REQUESTS FOR REPORTS.

The other ten cities not represented in the accompanying statistics failed to render a report, after repeated urging by the Controller. Of these cities, Santa Cruz is the only one with a reasonable excuse for not rendering a report. In this city the clerk was taken ill and has not entirely recovered.

San Jose, a city of approximately 35,000 population, the eighth largest in the State, and for this reason is particularly important, together with Crescent City, Ferndale, Fort Jones, Holtville, Perris, Susanville, Tropico and Yuba City, simply ignored the provisions of the act of 1911 and the efforts of the Controller to make this a complete report.

The willingness of 208 municipalities to furnish the data only makes the failure of these cities more noticeable and furnishes less excuse for their non-compliance. Waiting for these delinquent cities to furnish data has held up the report far beyond the logical time for publication.

AUDITORS AND CLERKS COMMENDED.

To the county auditors and the city clerks and auditors is due the credit for the complete reports of the counties and cities. They are to be commended for the courtesy and promptness they have shown and the interest they have taken in this report, which imposes considerable extra labor upon them.

UNITED STATES CENSUS BUREAU FORMS.

The city reports have been changed this year from a temporary form, drafted two years ago, to a permanent one corresponding practically in form and classifications to the one in use by the United State Bureau of the Census.

It is believed that the statistics presented in this report are as complete and as correct as can be obtained by the method of collection now in use, viz, the making up and forwarding of data by the city and county officials.

NEW METHOD RECOMMENDED.

To make an absolutely correct report of each city and county it would be necessary for the legislature to appropriate a sufficient amount of money to enable the compiling office to put men in the field and collect the data, as is done by the Federal Government in cities of 30,000 population or over. This is in no way a reflection on the auditors and clerks now making reports. It is a well-known fact that the classifications can not be as closely followed by 300 men not particularly trained in this line of work, as they could be by a corps of trained field men under the supervision of the compiling office.

TABLE OF CONTENTS.

			Page.
INTRODUCTION			5
TABLE	I.	Municipalities—Class, Population, Estimated Population	11
TABLE	II.	Municipalities—Fiscal Year, Area, Assessment Roll, Bond Debt	15
TABLE	III.	Municipalities—Receipts Classified According to Source	22
TABLE	IV.	Municipalities—Payments Classified in Accordance With Governmental Functions Performed	40
TABLE	V.	Municipalities—Detailed Report of Taxes, Licenses and Permits, and Subventions and Grants	52
TABLE	VI.	Municipalities—Detailed Report of Gifts, Donations, Pension Fund Dues, Municipal Service	64
		Municipalities—Enterprises and Receipts, from Debt Obligations	68
TABLE	VII.	Municipalities—Detailed Report of Payments for General Government and Protection to Persons and Property	72
TABLE	VIII.	Municipalities—Detailed Report of Payments for Conservation of Health and Sanitation	84
TABLE	IX.	Municipalities—Detailed Report of Payments for Highways	90
TABLE	X.	Municipalities—Detailed Report of Payments for Recreation and Public Service Enterprises	96
TABLE	XI.	Municipalities—Detailed Report of Water Works System	106
TABLE	XII.	Municipalities—Detailed Report of Electric Light Plants	112
TABLE	XIII.	Municipalities—Detailed Report of Wharves, Docks, Landings, Etc.	114
TABLE	XIV.	Municipalities—Detailed Report of Gas Works	115
TABLE	XV.	Counties—Assessed Valuation, Tax Rate, and Bond Debts	116
TABLE	XVI.	Counties—Receipts Classified According to Source	118
TABLE	XVII.	Counties—Disbursements Classified According to Governmental Functions Performed	122
TABLE	XVIII.	Counties—Detailed Report of Taxes and Licenses	126
TABLE	XIX.	Counties—Detailed Report of Fees and Fines	128
TABLE	XX.	Counties—Detailed Report of Special Service Rendered and District Taxes	130
TABLE	XXI.	Counties—Detailed Report of Miscellaneous and from State for County Use	132
TABLE	XXII.	Counties—Detailed Report of Sale of Bonds and Special Receipts Not for County Use	136
TABLE	XXIII.	Counties—Detailed Report of Payments for General Government	138
TABLE	XXIV.	Counties—Detailed Report of Payments for Protection of Life, Health and Property	146
TABLE	XXV.	Counties—Detailed Report of Payments for Judicial	150
TABLE	XXVI.	Counties—Detailed Report of Payments for Education	152
TABLE	XXVII.	Counties—Detailed Report of Payments for Charities and Corrections	156
TABLE	XXVIII.	Counties—Detailed Report of Payments for Public Buildings and Grounds	160
TABLE	XXIX.	Counties—Detailed Report of Payments for Bridges, Highways, Ferries, Etc.	162
TABLE	XXX.	Counties—Detailed Report of Payments for Bonds, Miscellaneous, Not for County Use	164

INCREASE IN POPULATION.

The seven larger cities of the State represent a considerable increase in population over the preceding two years, as shown in the following tabulation:

Cities	1910	1912	1913
San Francisco	416,912	475,000	520,000
Los Angeles	319,198	425,000	500,000
Oakland	150,174	170,000	175,000
Sacramento	44,696	65,000	65,000
San Diego	39,578	60,000	84,000
Berkeley	40,434	45,000	50,000
Pasadena	30,291	35,000	35,500

The 1912 and 1913 figures are an estimation made by the city clerk or auditor in conference with other officials, or figured on the increased percentage of the school census. In the case of Sacramento, a portion of the increase is due to annexed territory; but in all cases, the continued city growth is shown. This is true of the smaller cities, as well as the large; in fact, in most cases the percentage of growth is larger in the latter.

RECEIPTS AND DISBURSEMENTS GROW.

This growth is shown not only in the population, but in the municipal receipts and disbursements which each year have exceeded the last. A comparison of the receipts and disbursements for the last three years is as follows—receipts not including bond sales or other debt obligations:

	Receipts	Disbursements
1911	$36,287,559 81	$43,808,965 13
1912	38,921,488 06	53,251,005 27
1913	43,707,784 47	67,089,259 36

The bonded indebtedness of 1912 showed a gain of $17,724,477.96 over 1911 and 1913 shows a gain of $17,090,048.44 over 1912.

COUNTY STATISTICS.

Tables XV to XXX set forth the data furnished by the counties and contain returns from the entire fifty-eight, showing assessment rolls, tax rates, bonded indebtedness, receipts and disbursements from July 1, 1912, to June 30, 1913. All of these tables include the city and county of San Francisco. In tables XVIII to XXX are shown in detail the sources from which receipts are derived, and for what purposes the county money is disbursed.

POPULATION OF THE STATE.

An almost incredible gain is shown in the population of the State. According to the U. S. Census of 1900, the entire population of the State was 1,485,053; in 1910 it had increased to 2,377,549; and, at the present time, by working on the basis used for such estimates, the statistics show 2,763,109; an increase of 385,560 since 1910. The greater percentage of this increase has gone to the cities, according to reports received by this department, but, of course, a certain portion has found

its way into the rural districts, especially in the rich valleys of the Sacramento and San Joaquin rivers, where numerous large reclamation projects are being completed.

VALUATIONS.

The total valuation, as shown by the assessment rolls, including the railroads assessed by the State Board of Equalization for 1912, amounts to $2,907,855,033, and for 1913 the same amounted to $3,134,811,284, an increase of $226,956,251. This assessment covers 45,306,083 acres of land and the personal property, etc., of the residents of the several counties.

These assessments, according to data which has been collected from time to time, are made on a basis of about forty-five per cent of the actual appraised value. Taking this as a basis, the actual value of all assessable property in the State would amount to $6,966,247,298.

BONDED INDEBTEDNESS.

A comparison of the outstanding bonds of the counties for the years 1912 and 1913 shows an increase of $16,348,435.44, as indicated by this table.

1913 county bonds	$47,733,477 60	
1912 county bonds	33,853,700 00	
An increase of		$13,879,777 60
1913 district bonds	$21,461,939 15	
1912 district bonds	18,993,281 31	
An increase of		2,468,657 84
Total increase		$16,348,435 44

The total amount of bonds on which the several counties are now paying interest amounts to $69,195,416.75. The two counties with the largest individual bonded indebtedness are San Francisco with $33,836,500.00 and Los Angeles with $11,[illegible]6,663.00.

In the case of San Francisco these bonds cover the entire county, but in Los Angeles $7,986,663.00 are for certain districts.

RECEIPTS.

The receipts from some sources show a decrease from those of 1912, but on the entire amount there is a substantial increase. Receipts, classified according to the source from which they are derived for the two years, would appear as follows:

	1912	1913
General county taxes	$30,245,863 98	$30,738,334 25
Licenses	1,582,414 91	1,562,109 89
Fees	1,428,154 84	1,512,767 76
Fines	218,827 07	238,366 18
Special service rendered	49,545 77	55,222 62
District taxes	10,431,560 30	15,015,737 51
Miscellaneous	1,849,993 09	1,662,411 73
From state	6,388,598 63	6,260,819 56
Sale of bonds	12,656,237 62	17,582,917 79
Special receipts	6,697,941 77	10,160,783 72
Total receipts	$71,549,137 98	$84,789,471 01

TAXES.

The greatest county revenue comes, of course, from taxation and amounts to $45,754,071.76, made up as shown by this table of taxes:

General county taxes	$30,478,680 97
Hospital and road poll	259,653 28
District road	2,720,478 97
District school	7,312,936 86
District high school	4,645,747 90
Other district	336,573 78

Besides this amount which is for county use, there are the taxes for state purposes, those collected for municipalities and other special taxes as follows:

Panama-Pacific and State's portion of redemptions	$1,145,267 85
Collateral inheritances	1,044,216 32
State poll taxes for state school fund	786,728 45
Special taxes, including those collected by the county for municipalities	3,845,820 41
	$6,822,033 03

This brings the total amount raised in the counties by direct taxation to $52,576,104.79, or about 61 per cent of the entire receipts.

The county taxes, with the exception of those raised for paying the principal and interest on bonds outstanding prior to November 8, 1910, are all assessed against the non-operative property which shows in the assessment data as $2,633,832,795.00. The operative property, including railroads, is assessed by the State Board of Equalization for state purposes. The only direct general property tax for state purposes is assessed this year at $.042 for Panama-Pacific purposes. This tax is collected by the counties on all classes of property and turned over to the State in the same manner as an ad valorem tax.

FEES.

The fees collected by the county officers are an important source of revenue, especially in those counties where all fees are placed in the county funds. There are some counties which still have what is termed a fee officer, viz, an officer, such as recorder or assessor, paid partly or entirely by the fees he collects. It is surprising, in some instances, to know what these fees amount to in one year.

During 1913, the fees collected by the different officers amounted to $1,512,767.76 and are made up as follows:

County clerk	$318,479 24
County recorder	702,439 94
County sheriff	40,520 35
County assessor	133,028 39
Superintendent of schools	8,146 91
All others	310,152 93

It will be noted that the recorder and clerk lead all other fee officers, as shown by this report. In a number of counties, where the assessor is paid by the fees he collects, no record is made in the books of the auditor, because the assessor deducts his commission before turning his collections into the treasury. This is a practice that should be eliminated. All officers paid on a fee basis should deposit their gross collections and receive their compensation in the same manner as salaried officers. By following this latter method, the actual amounts

paid an officer are a matter of record and subject to change when the compensation reaches an unusual amount.

AMOUNTS RECEIVED FROM THE STATE.

The counties received from the State $6,260,819.56, as shown by the following table:

Bond interest and redemption	$320,454 91
Elementary schools	5,024,010 70
High schools	528,860 97
Support of orphans	188,419 02
For other purposes	199,073 96

The amount of the bond interest and redemption is levied by the State and refunded to the counties to reimburse them for loss on bonds outstanding prior to November 8, 1910, at which time under the provisions of Constitutional Amendment No. 1, all operative property was eliminated from the county assessment rolls and assessed by the State for state purposes only.

The school money is apportioned by the State Superintendent of Public Instruction, and is based on the number of teachers and the daily attendance of pupils.

DISBURSEMENTS.

It is not practicable to make a complete comparison of the disbursements for the two years on account of certain changes made in the classifications. In the 1912 report, all construction was charged under the caption "Public Works," while this year all new work is placed under the heading to which it belongs. By deducting the outlays from the totals under the several headings, we get a comparatively accurate statement, and the expense items for the two years appear as follows:

	1912	1913
General government	$6,691,998 70	$6,651,958 82
Protection to life, health and property	4,244,846 38	4,854,887 11
Judicial expense	1,950,397 64	1,844,952 96
Education	19,466,830 08	21,359,189 32
Charities and corrections	3,371,179 80	3,685,984 71
Public buildings	3,441,910 83	*1,962,643 54
Highways, bridges, etc.	8,489,941 73	8,017,297 05
Bond interest and redemption	3,781,296 90	4,346,957 68
Miscellaneous for county use	877,848 82	14,644,909 36
State settlements	2,923,787 38	4,148,676 62
Miscellaneous not for county use	2,322,158 13	6,060,214 86
	$57,562,196 39	$77,577,672 03
Add public works (construction)	11,490,091 60	
Total disbursements 1912	$69,052,287 99	
Add outlays		8,270,386 76
Total disbursements 1913		$85,848,058 79

*Outlays are not deducted from this item because in 1912 New Buildings were charged under this heading.

EDUCATION.

In 1911 the amounts reported by the counties as having been expended for education was $16,823,456.83 and in 1912, $19,466,830.08, an increase of $2,643,373.25. This year's report shows $21,359,189.32 or $1,892,359.24 more than 1912, not including $3,293,535.68 which was spent for new buildings and equipment. Education is the largest

single item of expense that California has. With increased number and size of new school buildings and larger corps of teachers is made plain the reason for the great rapidity in growth of every section of the State.

SUMMARY OF DISBURSEMENT.

Approximately, the governments of California disburse $139,941,447.71 of public money each year.

The State disbursed during the fiscal year of 1912-13, including payments to the counties	$22,900,416 40
The county payments (eliminating San Francisco, which is treated as a city in this instance, also the amounts paid to the counties by the State) amounted to	49,951,771 95
The municipal disbursements show	67,089,259 36
Making a grand total of	$139,941,447 71

TABLE I. MUNICIPALITIES.

CLASS POPULATION ACCORDING TO 1910 CENSUS, AND POPULATION ESTIMATED BY CITY AUDITORS AND CLERKS.

Number of city in tables	City	Class	Population per 1910 census	Estimated population June 30, 1913
10	Alameda	City 5th	23,383	28,000
